WORK EXPERIENCE

Design Desk   **Jun. 2018 – Present**
Founder, CEO & Web Designer   *Atlanta, GA*
- Design Desk is a CMS web design agency, focused on small companies looking to expand their business online (designdesk.tech).
- As the CEO, I manage and direct the company toward its primary goals and objectives.
- Working on Multiple CMS' and adding custom code integrations to provide solutions based on client's needs for each project
- Leading teams for larger projects, and promoting communication to create unity in each project.

2U - Georgia Tech Professional Education   **Sept. 2021 – Present**
Instructional Specialist   *Atlanta, GA*
- I am a teaching assistant for the Georgia Tech Coding Bootcamp, where we teach coding skills to become proficient in front-end and back-end technologies. (MERN Stack)
- I work with smaller groups of students and individuals in remedial teaching or reinforcing the learning process.
- Assisting in grading, while providing feedback on best practices for the industry and incentivizing dry code.

Cognizant   **Nov. 2019 – Aug. 2020**
Software Engineer   *Atlanta, GA*
- During my time at Cognizant, I wrote well-design, testable code for the back-end of payment systems of the company's client using the Java Spring Boot, JavaScript, React, and Vue tech stack.
- Maintained and documented new software procedures, while also helping onboarding team members.

EDUCATION

Georgia Institute of Technology   **February 2018**
Full-Stack Web Development, Certification   *Atlanta, GA*
- Certified Full-Stack Developer in both JavaScript and Java Languages.
- Currently working in the JavaScript bootcamp as a teaching assistant

Gwinnett Technical College   **Aug 2016 - Aug 2017**
                                                                                                         Atlanta, GA
